

Dog Vaccination Schedule

At 6 - 8 weeks old (or on a vaccination restart)

1st primary vaccination

Stickers will show (depending on the vaccine brand) variations of DHP/DHPPi and L2 or L4 in record book

Vaccinations covering Distemper (D), Hepatitis (H), Parvovirus (P) & Parainfluenza (Pi)

Vaccinations covering 2 strains of Leptospirosis (L2) or 4 strains (L4)

Occasionally Vanguard Plus7 will be used and this covers for all of the above so there will only be one sticker

At 10 - 12 weeks old (or 4 weeks after the 1st vaccinations if it's a restart)

2nd primary vaccination

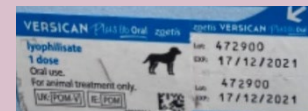

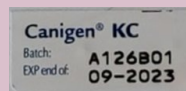

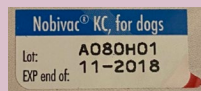

Stickers will be the same as their 1st vaccinations and need to be of the same brand to provide complete coverage

Kennel cough vaccination

During primary course of vaccinations or **at least 14 days** prior to boarding

Stickers will show KC, Bronchi-Shield or Versican Plus BB Oral

Annual booster

Yearly

DHPPi/DHPP required every 3 years

L2 or L4 required every year

KC, Bronchi-Shield or Versican Plus BB Oral required every year

Fully covered 2 weeks after 2nd primary vaccination

Suitable for boarding at least 14 days after KC vaccination

The course will need to be restarted if the booster is overdue by more than 3 months
